PROFILE

Industrial engineering graduate who ends up being the person friends ask to "just make a spreadsheet of it." Equally happy in a pivot table and in front of a room explaining what the pivot table means.

EXPERIENCE

Supply Chain Analyst (thesis internship)

ICA Gruppen logistics, Gothenburg

2025 – 2026

- Analyzed delivery-route data across 40 stores for my master's thesis on last-mile efficiency
- Built an Excel/Power Query reporting tool adopted by two category planners; identified €120k in annual route savings

Teaching Assistant, Operations Management

Chalmers University of Technology

2024 – 2025

- Ran weekly Excel modelling labs for 60 undergraduates
- Rewrote the course's simulation exercise — student pass rate rose 14 points

EDUCATION

M.Sc. Industrial Engineering & Management

Chalmers University of Technology

2024 – 2026

Thesis: last-mile route optimization in grocery retail (in collaboration with ICA)

B.Sc. Industrial Engineering

Chalmers University of Technology

2021 – 2024

SKILLS

Analysis: Excel (power user), Power Query, SQL (basic), Power BI (basic), process mapping

Communication: Stakeholder presentations, teaching, technical writing

Languages: Swedish (native), English (fluent)
