PROFILE

Project manager with five years delivering telecom infrastructure rollouts — 200+ physical sites from contract to go-live. I like Gantt charts that survive contact with reality and stakeholders who tell me bad news early.

EXPERIENCE

Rollout Project Manager

Polkomtel Infrastructure

2022 — Present

- Manage 10–15 concurrent telecom site builds (civil works, power, transmission, activation) across three regions
- Delivered 200+ sites to date at 96% on-time rate; average budget variance under 4%
- Cut average site delivery time from 14 to 9 weeks by renegotiating contractor frameworks and pre-approving standard designs

Project Coordinator

NetWorks Engineering

2021 — 2022

- Coordinated fiber-to-the-home deployments for two municipal networks
- Built the permit-tracking system that eliminated utility-approval delays as the top schedule risk

EDUCATION & CERTIFICATIONS

M.Sc. Management & Production Engineering

AGH University of Kraków

2016 — 2021

PRINCE2 Practitioner • PMP (2024)

AXELOS / PMI

Current

SKILLS

Delivery: Multi-site rollout, contractor & utility management, budgets, risk registers, permits

Tools: MS Project, Jira, Power BI, Excel

Languages: Polish (native), English (fluent), German (B1)
